## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Dicker (US 5109546).

Dicker discloses a pant garment that extends to the ankles at 26 as seen in figure 1 with the support band 42 that is adjustable at 36 and with the different strengths along the band length where in the areas attached closer to 38 would be stronger than those that are at lower portions along the leg and to 36. The bands extend on the leg nad right legs over the left and right buttocks as claimed and over the trochanter and hip or thigh areas as claimed. The bands are curved over the buttocks area as as claimed The band has upper and lower tightening sides as claimed The band is a belt shape. The band has stronger and lesser strong areas at 36.

### ***Drawings***

The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the the ankle portions as in claim 7 and 17 and the different garments as I claims 12 and 20 of spats, leotards, tights, pantyhose, sports tights, a bod y suit have not been shown and must be shown

or the feature(s) canceled from the claim(s). No new matter should be entered. Also only a single embodiment should be selected for prosecution.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.
